Slim SCW 1211-4511

Water Cooled portable Chiller

1 x scroll compressor, 1 x refrigerant circuit

Cooling capacity: from 11,7 to 45,2 kW

Benefits:

- **Flexible functioning:** water condensing temperatures from 17°C up to +40°C
- **Reduced energy absorption and lower noise levels:** scroll compressor
- **High efficient heat exchange:** stainless steel brazed plate evaporator
- **Optimal flow:** internal water circulation pump
- **Temperature stability and low thermal dispersion:** internal stainless steel and insulated tank open type in order to discharge the air inside the circuit during the production changing
- **Eco-compatible:** green refrigerant R410A with high cooling capacity

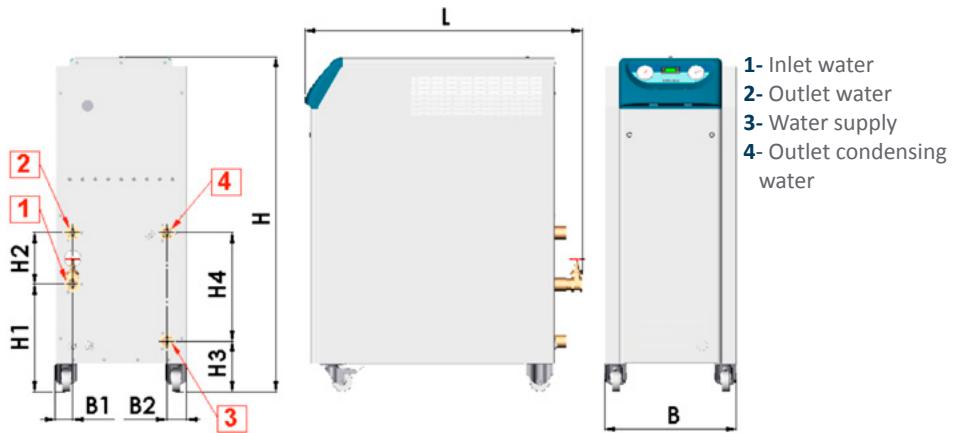

The **SLIM Series** of portable chillers provide low temperature water independent from any ambient condition. The range, designed for application in all the industrial sectors, assures maximum flexibility and energy efficient functioning.

Safe functioning: high and low pressure switches, high and low pressure gauges. The **microprocessor control** displaying key water temperature and alarms. Simplified installation, reduced footprint and quick startup operations.

Options:

- Overflow security kit
- Serial interface Modbus
- Acoustic alarm with lamp
- Hot gas by-pass for extremely precise water temperature
- Mechanical water filter
- Condensation control valve

Slim 8322-16022

HIGH CAPACITY COMPACT SERIES

Refrigeration capacity: from 83 to 170 kW

- Up to 2 independent cooling circuits
- Scroll compressors
- Eco-compatible fluid

Model SCW 8322-16022

1 scroll type compressor, 1 refrigeration circuit

The Slim series water-cooled chillers combine high cooling capacity and extremely small sizes, with high energy efficiency. They offer low water temperature independent of any environmental condition. The Slim meets all the requirements of industrial applications and guarantees maximum flexibility and efficient operation.

Efficient and safe operation: uses high and low pressure gauges and pressure switches, and metal filters on the condensers. The microprocessor control displays the set temperature and alarms on the screen. Simplified installation, extremely small space and quick commissioning operations.

Benefits

- Up to 2 independent cooling circuits that ensure wide partialization with total operational reliability
- Reduced energy consumption with the use of scroll compressors, plate evaporators, micro channel condensers and high performance water pumps
- Eco-compatible fluid R410A
- Hydraulic circuit made of non-corrosive materials
- Temperature stability and low thermal dispersion using thermally insulated stainless steel tank
- Painted galvanized steel construction and sealed panel with double closure, also allowing outdoor installation

Products available only for South America .

Only available in: BR, AR, BO, CL, CO, EC, PY, PE, UY, VE

Slim 4222-5822

HIGH CAPACITY COMPACT SERIES

Refrigeration capacity: from 46.94 to 54.33 kW

- Up to 2 independent cooling circuits
- Scroll compressors
- Eco-compatible fluid

Model SCW 4222-5822

1 scroll type compressor, 1 refrigeration circuit

The Slim series water-cooled chillers combine high cooling capacity and extremely small sizes, with high energy efficiency. They offer low water temperature independent of any environmental condition. The Slim meets all the requirements of industrial applications and guarantees maximum flexibility and efficient operation.

Efficient and safe operation: uses high and low pressure gauges and pressure switches, and metal filters on the condensers. The microprocessor control displays the set temperature and alarms on the screen. Simplified installation, extremely small space and quick commissioning operations.

Products available only for South America .

Only available in: BR, AR, BO, CL, CO, EC, PY, PE, UY, VE

Slim 2011-2711

HIGH CAPACITY COMPACT SERIES

Refrigeration capacity: from 23.48 to 27.16 kW

- Up to 2 independent cooling circuits
- Scroll compressors
- Eco-compatible fluid

Model SCW 2011-2711

1 scroll type compressor, 1 refrigeration circuit

The Slim series water-cooled chillers combine high cooling capacity and extremely small sizes, with high energy efficiency. They offer low water temperature independent of any environmental condition. The Slim meets all the requirements of industrial applications and guarantees maximum flexibility and efficient operation.

Efficient and safe operation: uses high and low pressure gauges and pressure switches, and metal filters on the condensers. The microprocessor control displays the set temperature and alarms on the screen. Simplified installation, extremely small space and quick commissioning operations.
